

Breakthrough is sustained by tax deductible donations. We are grateful for your support in helping us to provide worldwide prayer.

Breakthrough offers the following materials to equip Christians for the work of intercessory prayer:

- * Breakthrough Intercessor magazine
- * Prayer for every need
- * Prayer conferences and tapes
- * Handbook for Intercessors
- * Church and conference speakers

Breakthrough's Purpose: No matter who you are or what your need, we are here to minister to you through prayer. There is no limit to the number of different requests you may make, and requests may be re-submitted every 21 days.

Intercessory Prayer Ministry

*The Ministry That Reaches
Around the World*

Breakthrough was started in 1980 by well known Christian author, Catherine Marshall and her husband, Leonard LeSourd. Through books and articles, Catherine shared her own miraculous healing and remarkable intimacy with God. Breakthrough grew out of God's vision to Catherine to bring together those who were in need of intercessory prayer with those willing to pray. People from around the world responded by sharing their personal needs and volunteering to be Christian intercessors.

Today Breakthrough processes thousands of prayer requests annually, utilizing nearly 4,000 intercessors worldwide.

To Request Prayer: Send your request to Breakthrough using our website, e-mail, fax or mail. Correspondence should include your complete address and an e-mail if available.

How We Process Your Request: Your request is read by our staff and assigned to six intercessors. Each intercessor will pray for you for 21 days (Daniel 10:12-13).

Anonymous Prayer: Your request will not be sent to intercessors in your geographic area. Intercessors will only know your first name and state or country. Your request may be sent to intercessors around the world.

How You Can be Involved: If you feel called to be a Breakthrough intercessor, we encourage you to contact us. When you send us your name and complete mailing address, we will send you our intercessor's packet.
